

## **Math – Procedure**

### **Demonstrating Competency/Proficiency in Math**

The district will manage the assessment process so that students seeking competency-based credit can demonstrate competency/proficiency in math.

Students may demonstrate competence in the following ways:

1. The student may recover 1 math credit following a failed or incomplete math course if the student meets standard on a state assessment in the equivalent math;
2. The student may recover 1 math credit following a failed or incomplete math course if the student meets standard on an end-of-course exam for a math course (where an end-of-course exam is available); or
3. The student may recover 1 math credit following a failed or incomplete math course if the student meets standard on another approved state alternative that meets the graduation requirement;

### **General Education Development Test**

The State Board of Education in consultation with the Office of the Superintendent of Public Instruction determines what constitutes a passing score for a General Education Development (GED) test. Any students may obtain [identify amount of credit-typical credit ranges from (.5) to (1) credit] math credit for achieving a passing score on a GED test in math. Additionally, any student may obtain [identify amount of credit-typical credit ranges from (.5) to (1) credit] for successfully completing a course or courses in preparation for taking a GED test.

For students in or from institutional education facilities, the district will award at least one (1) Math credit for achieving a passing score on the Math section of a GED test. The district will also award students in or from institutional education facilities additional credit for successfully completing a course or courses in preparation for taking a GED test.

### **Other Assessments**

Students may obtain identify amount of credit-typical credit ranges from (.5) to (1) credit math credit for passing a district-created assessment that is aligned to state learning standards.

Students do not need to have attempted and failed a course before being eligible for these options. The options from the list below are available:

- Locally created written or oral test;
- Written report by the student;
- Student-designed portfolio of work;
- Student presentation or oral defense of their learning in the course;
- Hands-on demonstration of knowledge and skills;
- A combination of assessment approaches, as defined by the district; or
- other locally developed methods.

Equivalency course of study: Students may receive credit for learning experiences outside of school that align to state learning standards, in accordance with Board Policy 2413 – Equivalency Credit Opportunities and WAC 392-410-300.

Successful completion of next higher-level course: Credit may be awarded for a course when the student successfully completes the next higher-level course in a sequence that includes a natural progression of the state learning standards from the previous course. State or locally determined learning standards will be used as the guide when making decisions regarding what courses should qualify.

Mastery-based credit is available in the following math courses: Any classes in math in the current course catalog if the student achieves a C or higher grade in the next-higher level course.
