## SCHOOL MODULE

### Change in Immunization Recordkeeping

Dear Families,

Concrete School District is changing how we manage student immunization records. We are now using the School Module, an online system provided by the Washington State Department of Health.

The School Module allows us to quickly and efficiently check if your child has the vaccines required for school. This will save us time on finding and entering vaccination dates and free up time to work with students.

Most children born and/or vaccinated in Washington already have their information in the system. You can access your child's record at any time by signing up for MyIR at <https://wa.myir.net/register>.

As we move to this system, the school nurse may ask you for more information about your child's vaccination history. If your child is missing vaccines in the system, we may ask for a copy of their immunization record.

If you have any questions, please feel free to contact the school nurse, at [djohnson@concrete.k12.wa.us](mailto:djohnson@concrete.k12.wa.us) or (360) 853-4023 office or (360) 631-4173.

Thank you.

Debora (Debbie) Johnson MN, RN  
District Nurse  
Concrete School District
